

HW#6 Due Fri Feb 22, 2019, beginning of class. NOTE FRIDAY due date (not Wednesday).

Note that HW#5 was to work on your Statistician interview, write-up and poster, and also to study for our midterm exam.

HW#6, Part A: "book problems"

Pg. 394/ 7.3.4, 7.3.5 (Write your OWN proof. Do NOT just copy from another source.

Clearly justify all steps.), 7.3.8, 7.3.12, 7.3.14

Pg. 400/ 7.4.13 Clearly explain in YOUR OWN WORDS.

Pg. 410/ 7.4.26 Justify your answer for each of the data sets.

HW#6, Part B:

Optional "Midterm rewrite" due Fri 2/22. Instructions will be posted separately from this document.

HW#6, Part C:

Doodle poll for Statistician Presentation time slots. This will be available Fri 2/15.

Also, remember that your Posters also are due Fri 2/15.

Thus we have several pieces due on the same day. We think this is not unreasonable because Part A is "usual", Part B is optional, Part C should take you very little time, and for your poster - you have been working on it for a good amount of time already.
